Description

EHD 180

Unlimited horsepower rating, as the gearbox is fully fabricated from steel and fitted with a forged, one piece blade beam spindle. This is all backed by a **2 Year Gearbox Warranty**.

The EHD is the preferred choice for many contractors and municipal users as it is built for optimum safety, performance and service life.

EHD-E 180

HOWARD's **EHD E Series** is a model variant which utilises the body and blade beam from the EHD series together with a market standard transmission (gearbox and friction clutch) to produce a competitively priced slasher. The EHDE maintains all the benefits of the proven multi-leaf alloy spring steel blade beam. Now, you can have the legendary performance of an EHD with a more price conscious entry level spec.
