Description

Liberty Z - Zero Turn 36?

All the advantages that a top-tier zero turn lawn mower provides.

The entire lawnmower system is built on the top of next generation Kawasaki mowers (the Kawasaki FR Series engines, to be specific) that allow you to fly across your lawn at speeds upwards of 11 km/h. An oversized fuel tank guarantees that you have more than enough fuel to get even the largest lawns mowed on a single tank.

Liberty Z - Zero Turn 42?

A heavy duty hydraulic system (a dual hydro gear set up that allows for full zero turn maneuverability) that has been made into the Kawasaki FR Series motors to offer plenty of power without sacrificing fuel efficiency.

A 4 foot mowing deck helps you to move through your lawn much faster than you would have been able to before, as well as the ability to cruise at upwards of 11 km/h when you're atop this lawnmower.

Liberty Z - Zero Turn 48?

A heavy duty hydraulic system (a dual hydro gear set up that allows for full zero turn maneuverability) that has been made into the Kohler 7000 PRO Series motors to offer plenty of power without sacrificing fuel efficiency.

A 4 foot mowing deck helps you to move through your lawn much faster than you would have been able to before, as well as the ability to cruise at upwards of 11 km/h when you're atop this lawnmower.

Liberty Z - Zero Turn 52?

Mowing your lawn – especially if it's a larger property – can start to feel like a chore when you're stuck behind a traditional lawn tractor or

cruising on a traditional riding lawn mower.

Liberty Z - Zero Turn 61?

At 61 inches wide, you'll be amazed at just how quickly you can get through your lawn mowing routine on top of this Liberty Z model – cutting anywhere between 50% and 75% off the time it used to take to mow your lawn almost instantly.

Not only is the oversized mowing deck going to help you make quick work of your lawn care needs, but the multi-blade configuration guarantees a clean and consistent cut – as well as an effortless discharge – that allows you to protect the health and aesthetics of your lawn at the same time.
