Description

T6 Dynamic Command /Auto Command™ range

Modern farming is evolving. You need to get more out of every square inch of field and from every hour of the farming day. You deserve greater comfort and ease of operation. That's why New Holland has developed the three-model T6 Auto Command™ range. The T6 has been designed for today's modern mixed arable farmers and intensive livestock operations and is packed full of features to satisfy even the most demanding users.
